Dear small recipient of this patchwork quilt,

We give you a wholeheartedly handmade quilt by Quilts and Friends. Although we live in an island named Singapore near the equator, away from Japan, our hearts are always with you.

When you are in pain, sad, lonely or tired, wrap yourself in this quilt, then remember that we are always behind you all the way from Singapore.

Sleep well, eat well and play well to grow up strong. And may you keep you walking forward with a smile. This quilt will always be with you.
